

INFORMATION AND COMMUNICATIONS TECHNOLOGY (ICT)

Liberia Governance and Economic Management Support Project (GEMS)

Through GEMS, IBI supports **14 Government of Liberia entities** in **developing ICT policies**, procedures and implementation mechanisms that will **build capacity** and improve performance through **automated systems**.

- ◆ Creating Citizen-centric e-Government Strategies
 - ◆ Developing ICT Handbooks and Manuals
- ◆ Customs Modernization and Single Window Implementation
 - ◆ Mobile Money and Payment Systems
 - ◆ Dynamic Geospatial Analysis

IBI is proud to be USAID's 2015 Small Business of the Year!
Find out more about our approach by scanning this code:
