If your appliance's plug does not match the shape of these sockets, you will need a travel plug adapter in order to plug in. If it is crucial to be able to plug in no matter what, bring an adapter for all three types. Voltage: 220-240 Volts (U.S./Canada are 110-120 Volts).

ROADS

Major part of the road network is good but it is advised to check on the state of the road you intend to take before going out. Traffic keeps to the right!

SAFETY AND SECURITY

Visitors to Burkina should be careful of crimes such as pickpocketing and purse snatching, especially in busy tourist areas such as the markets, parks and attractions. Safety precautions include traveling in a group, avoiding street demonstrations and nighttime travel, and limiting your display of jewelry and money. Visitors should also keep a watchful eye on luggage and personal items, and put travel documents in a secure place to prevent theft. Report any incident immediately to the police.

For this important event, the Ministry of Higher Education of Burkina Faso is making necessary arrangements to ensure the security at the selected hotels and at the Conference venue.
